Engineering and Conservation [1938]

Eldred B. A. E. Goddard

The Crisis of the Future of Great Britain.
I think that the influence is not only local to the biologic...
do not suffice for the oldest task in human history: to live on a piece of land that we do. They suffice to crack the atom, to command the seas. But they twentieth century: our tools are better than we are, and grow better faster. We end, I think, at what might be called the standard paradox of the
